

Wilder Fields

2024 Product Lineup

Our microgreens are vertically grown in a controlled environment to ensure consistent quality, vibrant colors and exceptional flavors all year round.

MIDWEST GROWN

Stays fresh 50% longer

Resealable, micro-perforated film lengthens shelf life over clamshell packaging.

No need to wash

Convenient and ready-to-eat product reduces prep time and saves on labor.

Adds value to dishes

Trend-right super-food elevates presentation and raises value of dish.

High safety standards

Non-GMO and pesticide free. Safely grown and packed in a USDA GAP certified facility.

Wilder Fields

2024 Product Lineup

RAINBOW MIX MICROGREENS

Our most versatile mix. Vibrant shades of green, purple, red liven a plate and add visual interest, while balanced flavor and texture pair well with many dishes.

ARUGULA MICROGREENS

Just like arugula but better, arugula microgreens have a distinct peppery flavor. Succulent leaves add a slightly buttery quality compared to a mature arugula.

CILANTRO MIGROGREENS

Highly aromatic microgreens shine in a dish by adding a bright, lime green color. It has a strong cilantro flavor with a light peppery note- no chopping required.
